Re: Hydro-pneumatic tank rental

Erik, our pricing options for renting the pressure tanks is as follows:

1 - 25K tank

First month \$50,000

Months 2 –12 \$4,500 per month

1 - 25k tank & 1 - 10k tank

First Month \$85,000

Months 2 – 12 \$6,300 per month

2 - 10K tanks

First month \$70,000

Months 2 – 12 \$3,600 per month

All first month rents include all transportation and set up costs.

We will sanitize the tank and fittings with AWWA Method #2. Our final connection will be a 5" Storz fitting or a 6" 150# bolt flange. Adapters, if needed, will be the responsibility of others. Any additional controls required by the customer will be provided by others. Our tanks are equipped with over pressure blowoff and vacuum relief valves to protect the tank. We also recommend that the water system be equipped with a blowoff that is close to the operating pressure of the system to protect water mains and customers from an over pressure incident. This would be the responsibility of others.

Tax will be added if applicable
Pricing is subject to availability

Terms: Net for the first month is due upon delivery. Additional monthly invoices will be sent on a 28 day billing cycle at the beginning of the month. Please issue a purchase order if this proposal is accepted. Thank you.
